How to use it. Play the Daily Squish once a day. Tick the circle, then write how close you got (your "off by" time) on the line. The small number is that day's Daily Squish. October brings the pumpkin finish, which turns up on about 4 days in 20 by chance, so this sheet does not say which days.

Squooshlet is a free browser game on a 3D simulation, not a product test or a shop.
